

1/10/2020

Dear Parents,

Today, Fulton County Schools pushed back the distribution of the first semester report cards from Monday, January 13, 2020 to Friday, January 17, 2020. These few extra days will provide schools more time to verify students' final grades and other information in the new student information system before they are posted.

As you may recall, Fulton County Schools began using Infinite Campus as its new student information system this year. Campus Parent is the portal that allows parents to view their students' grades, check attendance and communicate with teachers, as well as other helpful features. Please know that the information you see in Campus Parent might not reflect your student's final grade(s), so we ask for your patience until the end of next week. There is no impact on the information you see for your student's second semester classes.

We apologize for the delay, but it is necessary to make sure your child's information is accurate. Thank you for your understanding and patience.

Sincerely,

Candace S. Bethea  
Principal
