

4/26/20

Good Evening Parents and Guardians,

This is a quick reminder that students are working on the same assignments from last week. Assignments are due on or before Friday, May 1, 2020.

If you requested a packet and you haven't picked your packet up, please stop by the security guard station. Students with packets should return all work completed and labeled by Friday, May 1, 2020. If you need more time, please contact your teachers.

Final exams and assessments begin on Tuesday May 5, 2020 for all students in grades 9-11. Please make sure you have read the Hornet Academic Challenge for the final exams and assessments schedule by department. We will email additional guidance after Wednesday for final exams and assessments for all teachers.

All make-up opportunities given by teachers are optional. *However, we want to give every student the opportunity to pass all classes for both semesters for the 2019-2020 school year.* We ask that students complete all assignments before their final assessments. **The absolute last day to complete all assignments for the 2019-2020 school year is Thursday May 21, 2020.**

For some students, completing the current assignments and make-up opportunities may be overwhelming. Students can recover classes in future semesters.

As a reminder, summer school will be completely virtual.

If you have any questions, please do not hesitate to reach out.

Thanks,

Mrs. Bethea
