

As **9.6 million students over [age 35](#) attend university by 2020, they will account for 43% of the student population.** With the increasing number of parents being laid off due to COVID-19, many parents may be making the leap to improve their career outlook by obtaining another degree.

Our team at BestColleges.com wanted to equip these individuals with the tools to improve their job outlook during this unknown time. We curated the *Back to School for Parents Series* that includes multiple guides that delve into adult learning, financing resources, and a student loan guide. Our hope is that by making this information readily available, we can help improve and encourage more parents to go back to school. Take a look below:

## **Back to School for Parents Series**

### **Being a Parent in College:**

<https://www.bestcolleges.com/blog/being-a-parent-in-college>

### **Financial Aid Resources:**

<https://www.bestcolleges.com/financial-aid/>

### **Private Student Loan Guide:**

<https://www.bestcolleges.com/financial-aid/private-student-loans/>

Going back to school, juggling familial obligations and trying to stay financially afloat is a tough balance to find. Our hope is that these open-use guides are available to those that need them the most. **Please join us in helping parents in Georgia by adding one or more of our guides to your site, such as on a page like this - <https://www.hapevillecharter.org/parent-resources/>**

Thank you for your time and consideration in collaborating with us.

All the best,

**Brittany Cannon | Outreach Coordinator**
